</table>
| **INR ≤ 5 but < 9** | Preferred: omit next 1-2 doses Alternatively, omit 1-2 doses and give Vitamin K 1-2.5 mg po  
Alternatively for patients at high risk of thrombosis (i.e. valves), omit 1-2 doses and use FFP 2 units IV DO NOT use Vitamin K |
| **INR ≥ 9** | Hold warfarin therapy  
• Give FFP 2 units IV  
• Give Vitamin K (2.5-5 mg po)  
• In patients with prosthetic heart valves, give FFP 2 units IV and lower dose of Vitamin K (1-2.5 mg po) |
